

Tameside, Oldham & Glossop Mind Welcome Team Reception Volunteer

Tameside Oldham and Glossop Mind are looking to recruit friendly confident committed and reliable volunteers into our welcome team. This post involves supporting diverse services across the organisation and advising clients when they first contact TOG Mind by telephone, email and face-to-face.

Whilst not essential it would be advantageous to have experience of working one-to-one with members of the public and to have an awareness of emotional wellbeing and mental health issues. A willingness to learn and be a team player is much more essential

This is a very busy role that would suit those who have an aspiration to work in the MH field and those who may have some spare time to offer. It is important to note that you will occasionally be supporting people in challenging situations, if you feel you could meet these challenges and would like to work in friendly supportive environment, please complete our on-line volunteer application on our website.
